Reminder on notation: green means catching more than what the opponent can catch (i.e 48/2=24)

▽: Best move
☒: Worst move

Not catching with the 14-seed pit to keep max seed complexity for North, hence higher risk of errors

The game is lost for North after this move. Not optimal move = regressing the max result by 1 seed

Whatever North plays, it will give the same potential result

Remarkable position - routine to remember
Known result: South+3, North+4

North stops the game

North: 23
South: 25
